My nerves were shattered and my whole body was racked with pain so that I could hardly get a night's sleep and most of the time I could not even lie in bed I was in so much misery. My kidneys bothered me something terrible and there was sharp shooting pains through the small of my back that seemed like they would drive me insane. I tried all kinds of mediworse until finally after the doctors had treated me for three years they gave my case up as hopeless and said that I could not live. They held out no hope for me and I had made up my mind that I was going to die Even my best friends gave me up and I thought my time had surely come.

"I had heard so much about Orgatone and a friend of mine who had used it recommended the medicine to me so highly I decided to try it as a last resort and I had hardly used more than half a bottle before I felt it was straightening me out. The pains began to leave me and I commenced to pick up in weight and strength and I have such an appetite I am actually ashamed to eat all I want. My nerves are stronger and I sleep like a log and I get around better and I feel more lively than I have in fifteen years. I can certainly vouch for Orgatone, as it is the most remarkable medicine I have ever seen or heard of and I am only too glad to speak a good word for it whenever I

DALLAS MANAGES TO GET EVEN BREAK WITH SHREVEPORT

(By The Associated Press) Thanks to some grand pitching by their recruit righthander, Vic Fra-sier, the Dallas Steers managed to gain an even break with the Sports in their important twin bill yesterday at Shreveport and cling to the

Texas League ceiling.

After two of the veteran hurlers,
Barnabe and Martina, had been
knocked off, 7 to 6, in the opener,
Frasier mounted the rostrum in the second and held the slugging Phelanites to three scattered hits to win, 4 to 0. The Sports staged one of the rallies for which they are becoming famous to snatch the first decision, scoring the tying and winning tallies

in the ninth. Del Pratt's Wacoans grasped an opportunity to pull away from the Fort Worth Cats, who on the previous lay had crowded into a tie with them for third place. The Cubs licked San Antonio, 6 to 3, behind Stein's good pitching, while the Panthers were dropping a couple to the Wichita Falls, 6 to 2 and 4 to 2. The double loss shoved the Felines down within

a half game oft he Indians. The realization that if something was not done they would drop into a ie with Beaumont for the basement might have inspired the Spudders to year since a Wichita Falls club occupied the cellar at this stage of the race, but if Galloway's hirelings had split yesterday's bill they would at least have shared it with the Shippers, who were hamstringing the Houston Buffaloes, 11 to 2 and 3 to 2.

## Rome Resounds to Bells as Lateran Treaty Is Signed

Vatican City, June 7.—(AP)—All Rome resounded to the pealing of joyous church bells today as Premier Mussolini and Cardinal Gasparri sol-emnly exchanged ratifications of the historic lateran treaty bringing to an end the long strife between church and state in Italy.

There were no speeches and the eremony was brief and simple. One of its most striking moments was when the great bronze doors opening upon the colonnade of St. Peter's square, which had remained half shut or 59 years once more were opened

At the conclusion of the signing, Cardinal Gasparri, Papal secretary of state, read a letter from the pope in which he said his first act world be to send a telegram of benedic-tion to King Victor Emmanuel blessing him and his consort and all the members of the royal family and bestowing a special benediction upon "Chevalier Mussolini."

#### DRY TRANSFER ADVISABLE

The message sent to Congress by President Hoover Tuesday leaves no doubt that he intends to carry out the program of transferring prohibition from the Treasury to Justice departments at Washington, as propos ed during the election campaign. His message recommends the appointment of a joint committee by both houses of Congress to make an immediate and detailed study of the proposed transfer and make suggestions as to how it can be expedited. Other recom mendations looking toward closer un ification of administrative powers were also contained in the message, but interest in it centers chiefly on the prohibition feature.

There is no valid reason why the transfer should not be made. It is difficult for the layman to understand why enforcement of prohibition was ever delegated to the Treasury Department in the first place. Of course the Treasury Department had been chiefly concerned with liquo sales in looking after revenue collections before prohibition went into ef fect and was allowed to assume responsibility for the enforcement of the prohibition law because it apparently was closely related to the work

the Department had been conducting Expedition of cases, and close cooperation between enforcement of ficers and the courts, necessary to the best enforcement of the law, demand the transfer of the prohibition bureau to the Department of Justice. When property is found in the posession of a person illegally we reccynize it as a case for law enforcement officers, not for the tax collector. Abolition of a practice which has become a serious menace to law enforcement in the Nation most certainly involves the Department of Justice more than it does the Treasury Department.

The proposed transfer should result In greater coordination, and every
